

PERSONAL PROTECTIVE EQUIPMENT

Objective

It is the duty of the employer to provide items of personal protective equipment (PPE) at no cost to the employee.

Provision of personal protective equipment at the workplace should be made known to employees before they commence work or before they are required to wear or use the personal protective equipment, as appropriate to the circumstances.

Selection of PPE is dependent on the hazard identification, risk assessment and control measures implemented. Once it is established that there is a need for PPE the provision of PPE will be appropriate to the work being carried out.

Scope

All employees of Council who work in an environment where they are exposed to UV rays or where a risk assessment determines that PPE is required. These employees shall be supplied with personal, protective equipment and clothing to reduce the risk of exposure to UV rays and other hazards.
